

Writing task about water.(correction)

Writing task: Reorder the following expressions to get the correct meaning.

1- circulation of water in the/ , also called hydrologic cycle,/ in the Earth-atmosphere system./ cycle that involves the continuous/

- Water cycle, also called hydrologic cycle, cycle that involves the continuous circulation of water in the Earth-atmosphere system.

2- infiltration, percolation, retention, detention, / that move water throughout the different reservoirs on the planet./ evaporation, interception, transpiration, /The water cycle consists of various complicated processes/ overland flow, throughflow, and runoff./ The major processes involved are precipitation,

- The water cycle consists of various complicated processes that move water throughout the different reservoirs on the planet. The major processes involved are precipitation, evaporation, interception, transpiration, infiltration, percolation, retention, detention, overland flow, throughflow, and runoff.

3- the principal phase of the ascending part of the water cycle./ Water vapour performs two major functions:/ as its presence keeps the planetary surface warmer than would otherwise be the case,/ and (2) it is/: (1) it is important to the radiation balance of Earth,

- Water vapour performs two major functions: (1) it is important to the radiation balance of Earth, as its presence keeps the planetary surface warmer than would otherwise be the case, and (2) it is the principal phase of the ascending part of the water cycle.

4- the manner in which it is generated—specifically, /or storm sewage (stormwater)./ generated from rainwater runoff and human activities./ , as domestic sewage, industrial sewage,/ Wastewater is the polluted form of water/ It is typically categorized by/

- Wastewater is the polluted form of water generated from rainwater runoff and human activities. It is also called sewage. It is typically categorized by the manner in which it is generated—specifically, as domestic sewage, industrial sewage, or storm sewage (stormwater).
