

## **Task 1:**

### Warm-up:

Write five questions you believe a video with this title will answer.

Write at least 10 words you believe would be found in the video.

### First listening:

Check your predictions. Refine your answers and ensure you have written the five questions and a minimum of 10 words related to the video.

### Second listening:

With your group, discuss your answers and select five questions and a list of 10 words to represent the group.

### Third listening:

With your group, find answers to your selected questions from the video. The group with the maximum of correct question/answer pairs wins.

## Task 2:

*Select the correct answer*

1- Who is Adam?

- a) An aspiring entrepreneur
- b) A software developer
- c) A home decor products seller
- d) A customer

2- What kind of products is Adam interested in selling through his online store?

- a) Clothing items
- b) Home decor products
- c) Electronics
- d) Food items

3- What does Adam need to host an online store?

- a) A physical store
- b) A software application
- c) A social media account
- d) A website

4- What is the SDLC?

- a) A software development company
- b) A software development process
- c) A software development tool
- d) A software development product

5- How many phases are there in the SDLC?

- a) 4
- b) 5
- c) 6
- d) 7

6- What is the first stage of the SDLC?

- a) Planning requirements phase
- b) Requirement analysis phase
- c) Designing phase
- d) Implementation phase

7- What is the SRS document?

- a) Software requirements specification document
- b) System requirements specification document
- c) Software risk specification document
- d) Software quality specification document

8- What is the purpose of the Design Phase in the SDLC?

- a) To write the code for the software application
- b) To deploy the software application for consumer use
- c) To devise the system design and define the overall architecture of the software application
- d) To test the software application in multiple environments.

9- What is the DDS document?

- a) Design document specification
- b) Development design specification
- c) Data design specification
- d) Document design specification

10- What is the fourth stage of the SDLC?

- a) Planning requirements phase
- b) Requirement analysis phase
- c) Designing phase
- d) Implementation phase

11- What is the testing phase?

- a) The phase where the software is deployed to customers

- b) The phase where the software is designed
- c) The phase where the software is coded
- d) The phase where the software is tested for bugs and errors

12- What is the last stage of the SDLC?

- a) Planning requirements phase
- b) Requirement analysis phase
- c) Designing phase
- d) Deployment and maintenance phase

13- What is included in the design document specification?

- a) Software code details
- b) Details on defects and bugs
- c) Software architecture details
- d) Software requirements

14- What is included in the software requirements specification document?

- a) Software code details
- b) Details on defects and bugs
- c) Software architecture details
- d) Software requirements

15- What is the purpose of the deployment and maintenance phase?

- a) To deploy the software to customers
- b) To make the software accessible to users
- c) To solve errors and bugs in the software
- d) All of the above

Answer: a) An aspiring entrepreneur

Answer: b) Home decor products

Answer: b) A software application

Answer: b) A software development process

Answer: c) 6

Answer: a) Planning requirements phase

Answer: a) Software requirements specification document

Answer: c) Explanation: The Design Phase in the SDLC is where the system design is devised, which defines the overall architecture of the software application.

Answer: a) Design document specification

Answer: d) Implementation phase

Answer: d) The phase where the software is tested for bugs and errors

Answer: d) Deployment and maintenance phase

Answer: c) Software architecture details

Answer: d) Software requirements

Answer: d) All of the above
