

## Glossary : agronomy-related terminology

English Term	Definition	French Translation	Arabic Translation
<b>Agronomy</b>	Study of soil and crop science	Agronomie	علم الزراعة
<b>Biodiversity</b>	Variety of life in an ecosystem	Biodiversité	التنوع البيولوجي
<b>Carbon Sequestration</b>	Capturing carbon in soil or plants	Séquestration du carbone	احتياز الكربون
<b>Climate Change</b>	Long-term atmospheric shifts	Changement climatique	تغير المناخ
<b>Composting</b>	Decomposing organic matter for soil improvement	Compostage	التسميد العضوي
<b>Crop Rotation</b>	Alternating crops to enhance soil health	Rotation des cultures	تدوير المحاصيل
<b>Crop Yield</b>	Quantity of crop produced per unit area	Rendement des cultures	إنتاجية المحاصيل
<b>Decomposition</b>	Breakdown of organic matter	Décomposition	التحلل
<b>Drainage</b>	Soil's water removal capacity	Drainage	التصرف
<b>Erosion</b>	Degradation of soil by natural forces	Érosion	التعرية
<b>Fallow</b>	Land left unplanted to recover fertility	Jachère	الأرض البور
<b>Fertilizers</b>	Nutrients added to enhance soil fertility	Engrais	الأسمدة
<b>Green Manure</b>	Cover crop to enrich soil	Engrais vert	سماد أخضر
<b>Greenhouse Effect</b>	Trapping heat in the atmosphere	Effet de serre	تأثير الاحتباس الحراري
<b>Harvesting</b>	Collecting mature crops	Récolte	الحصاد
<b>Herbicide</b>	Substance killing unwanted plants	Herbicide	مبيدات الأعشاب
<b>Humus</b>	Organic component of soil	Humus	الدبال
<b>Irrigation</b>	Supplying water to crops	Irrigation	الري
<b>Leaching</b>	Loss of nutrients from soil by water	Lessivage	الترشيح
<b>Monoculture</b>	Growing a single crop extensively	Monoculture	زراعة أحادية
<b>Mulching</b>	Covering soil to retain moisture	Paillage	تعطيفية التربة
<b>Mycorrhizae</b>	Beneficial fungi associated with plant roots	Mycorhizes	الفطريات التكافلية

<b>Nitrate</b>	Essential plant nutrient	Nitrate	نترات
<b>Nutrient Cycle</b>	Movement of nutrients through soil and plants	Cycle des nutriments	دورة المغذيات
<b>Organic Farming</b>	Agriculture without synthetic inputs	Agriculture biologique	الزراعة العضوية
<b>Pest Control</b>	Methods to manage harmful organisms	Lutte contre les ravageurs	مكافحة الآفات
<b>Pesticides</b>	Chemicals controlling pests	Pesticides	مبيدات الآفات
<b>Pests</b>	Organisms damaging crops	Ravageurs	الآفات
<b>Photosynthesis</b>	Process plants use sunlight to make food	Photosynthèse	التركيب الضوئي
<b>Pollination</b>	Transfer of pollen for plant reproduction	Pollinisation	التلقيح
<b>Precision Farming</b>	Optimizing inputs based on field variability	Agriculture de précision	الزراعة الدقيقة
<b>Pruning</b>	Cutting branches to encourage growth	Élagage	التقليم
<b>Rhizosphere</b>	Zone around plant roots influenced by microbes	Rhizosphère	الجزرية المحيطة بالجذور
<b>Root Zone</b>	Soil area surrounding roots	Zone racinaire	منطقة الجذور
<b>Salinity</b>	Salt content in soil	Salinité	ملوحة التربة
<b>Seed Germination</b>	Process of seed growth	Germination des graines	إنبات البذور
<b>Silage</b>	Preserved feed for animals	Ensilage	العلف المخزن
<b>Soil Amendment</b>	Materials added to improve soil	Amendement du sol	تعديل التربة
<b>Soil Fertility</b>	Ability of soil to supply nutrients	Fertilité du sol	خصوبة التربة
<b>Soil pH</b>	Measure of soil acidity or alkalinity	pH du sol	درجة حموضة التربة
<b>Soil Profile</b>	Vertical section of soil layers	Profil du sol	قطع التربة
<b>Soil Structure</b>	Arrangement of soil particles	Structure du sol	بنية التربة
<b>Soil Texture</b>	Particle size composition of soil	Texture du sol	قوام التربة
<b>Sustainable Agriculture</b>	Environmentally conscious farming	Agriculture durable	الزراعة المستدامة
<b>Sustainable Yield</b>	Production level that avoids resource depletion	Rendement durable	إنتاجية مستدامة

<b>Tillage</b>	Soil preparation for planting	Labour	الحراثة
<b>Transpiration</b>	Water loss from plant leaves	Transpiration	النتح
<b>Weed Control</b>	Methods to manage unwanted plants	Désherbage	مكافحة الحشائش
<b>Yield</b>	Amount of crop produced	Rendement	النلحة
