## **II- Discussion:**

The following comments were written by people who saw the video. Discuss their meaning, then, as if you were on your internet browser, comment the video.

1. This all feels like the start of a dystopian sci-fi movie?
  2. A.I. definitely has its perils. We are pursuing uncharted territory. Let's hope it won't get out of hand.
  3. I'm sad for the poor old monkey: sipping his juice while locked in the one place, probably with the top of his skull removed.
  4. Well, that's not horrifying at all.
