

PUBLISHER: SCIENCE DIRECT,

- 1- JOURNAL, Plant communications,  
<https://www.sciencedirect.com/journal/plant-communications>

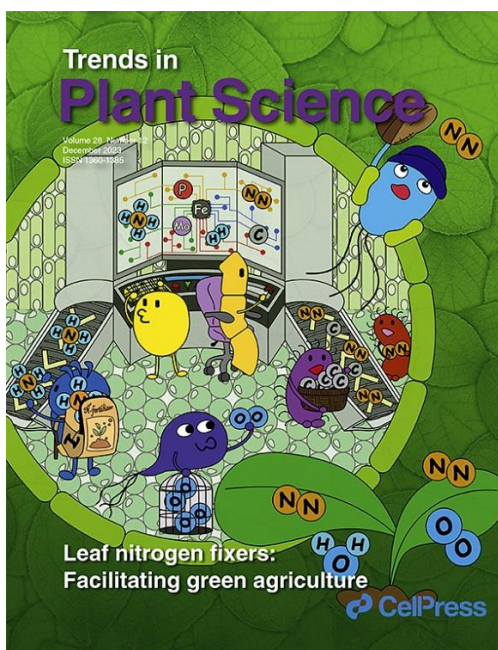

### Aims & Scope:

*Plant Communications* is dedicated to serving the global plant science community by providing a high-quality open access publishing platform. *Plant Communications* publishes original research results addressing either fundamental or applied aspects of plant sciences, important technical advances, highly useful research resources and outstanding review articles in all areas of plant sciences, including, but not limited to, the evolution, ecology, physiology, biochemistry, development, reproduction, metabolism, molecular and cellular biology, genetics, genomics, environmental interactions, biotechnology and breeding of both higher and lower plants, as well as their interactions with other organisms throughout the biosphere.

Visit the Cell Press website for more information about *Plant Communications* -

- 2- Trends in plant science  
<https://www.sciencedirect.com/journal/trends-in-plant-science>

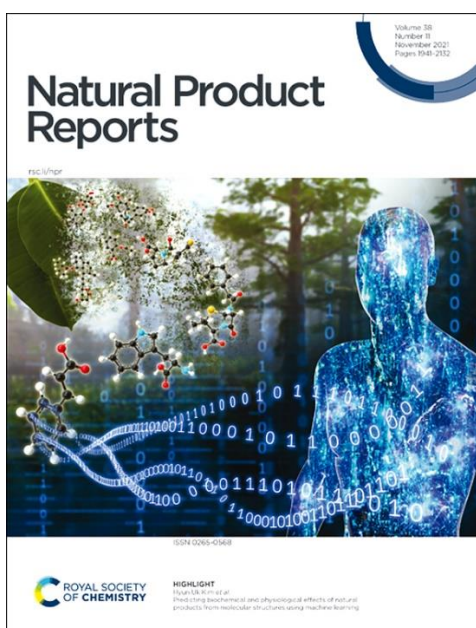

### Aims & Scope:

*Trends in Plant Science* is the original and leading monthly review journal in plant science, featuring broad coverage of basic plant science, from molecular biology through to ecology. Succinct and readable **reviews and opinions** on basic research topics provide instant overviews of current thinking and new developments in plant biology. Aimed at researchers, students and teachers, our articles are always authoritative, and are written by both leaders in the field and rising stars.

### 3- Natural Product Reports:
