

Display for the first year LMD SM students

The practical work of chemistry 1 will begin from **Sunday October 06** according to the timetable for each section.

Each student must attend with the subgroup to which they are assigned according to the posted list.

The subject managers will be present at the laboratory level to further guide the students.

Each student must bring: lab coats, latex gloves, safety glasses, the 1st handout practical work, a calculator, and a laboratory notebook.
